THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

To the inhabitants of the Town of Troy in the County of Cheshire in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Town on Tuesday, the 11th day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

Article 1. To choose a town clerk, one selectman for three years, and all other town officers.

Article 2. To see what action the town will take upon the recommended budget submitted by the budget committee.

Article 3. To see if the town will vote to raise and appropriate such sums of money as may be necessary to defray the following expenditures for the ensuing year:

- a. Town officers' salaries.
- b. Town officers' expenses.
- c. Election and registration.
- d. Town hall and other buildings.
- e. Parks and playgrounds.
- f. Legal fees and vital statistics.
- g. Motor vehicle permits.
- h. Civil defense.
- i. Employees retirement and social security.
- j. Interest on temporary loans.
- k. County tax.

Article 4. To see if the town will vote to raise and appropriate a sum of money for snow removal, salting and sanding.

Article 5. To see if the town will vote to raise and appropriate a sum of money for necessary highway oiling.

Article 6. To see if the town will vote to raise and appropriate a sum of money for general highway maintenance.

Article 7. To see if the town will vote to raise and appropriate the sum of \$377.54, to which the State will contribute \$2,516.95 if voted and accepted for the construction and maintenance of Class 5 roads.

Article 8. To see if the town will vote to appropriate a sum not exceeding \$5,800.00 for the purpose of making improvements to the following Class 5 road within the Town:

Road No. 60—West Hill—Edwards toward Verburg place, such sum to be raised through the issuance of bonds or notes under and in compliance with the provisions of Chapter 83, laws of 1951 as amended by Chapter 31, laws of 1953, and to authorize the Selectmen to determine the date and place of payment of such bonds or notes and to determine the rate of interest thereon, and to take such other steps as may be necessary to negotiate such bonds or notes as shall be to the best interests of the Town of Troy.

Article 9. To see if the town will vote to approve a regulation whereby the road agent will be appointed by the board of selectmen and be directly responsible to the selectmen.

Article 10. To see if the town will vote and appropriate a sum not to exceed \$7,500.00 for the purchasing of a highway truck and snow-plow, or take any action relating thereto.

Article 11. To see if the town will vote to allow a discount on all taxes excepting poll and head taxes, paid on or before dates designated at this meeting.

Article 12. To see if the town will vote to raise and appropriate a sum of money for street lighting.

Article 13. To see if the town will vote to raise and appropriate a sum of money for the support of the fire department.

Article 14. To see if the town will vote to raise and appropriate a sum of money for the police department.

Article 15. To see if the town will vote to raise and appropriate a sum of money for the maintenance and operation of the Water Works.

Article 16. To see if the town will vote the sum of \$4,000.00 for payment of water bonds, and \$1,485.00 for interest thereon.

Article 17. To see if the town will vote to raise and appropriate a sum of money for the employment of a district nurse.

Article 18. To see if the town will raise and appropriate the sum of \$795.00 as its fair share of the operating cost of the Elliot Community Hospital.

Article 19. To see if the town will raise a sum of money for the care of the dump.

Article 20. To see if the town will raise a sum of money for the observance of Memorial Day.

Article 21. To see if the town will raise and appropriate a sum of money for the continuation of the War Memorial Program.

Article 22. To see if the town will raise a sum of money for the support of the library.

Article 23. To see if the town will raise a sum of money for the care and improvements of cemeteries.

Article 24. To see if the town will raise the sum of \$200.00 to the Monadnock Regional Association.

Article 25. To see if the town will vote to have the annual town meeting held during the evening hours, or take any action relating thereto.

Article 26. To see if the town will vote to instruct the selectmen to borrow money to pay necessary town charges.

Article 27. To hear the reports of agents, officers or committees, heretofore chosen, and take any action relating thereto.

Given under our hands and seal, this 15th day of February,
in the year of our Lord nineteen hundred and fifty-eight.

CALVIN W. CUMINGS,
CLARENCE J. ABARE,
L. E. RAY HALE,

Selectmen of Troy.

A true copy of Warrant—Attest:

CALVIN W. CUMINGS,
CLARENCE J. ABARE,
L. E. RAY HALE,

Selectmen of Troy.

(State of New Hampshire reimbursed \$516.07 directly to the Town of Troy Treasurer, for old age assistance recovery for an amount previously paid by the overseer of the poor).

ARTHUR W. BOWERS,

Overseer of the Poor.

REPORT OF THE FIREWARDS

1957

During 1957 we answered 36 calls, a very considerable increase over the 16 calls answered during 1956. These consisted of:

- 5 General alarms
- 7 Chimney fires
- 6 Grass and brush fires
- 6 Car and truck fires
- 8 Dump fires
- 1 Oil burner fire
- 3 Miscellaneous (2 dog rescues, 1 false alarm)

We are glad to report that all of these fires were controlled before any extensive damage was done.

We bought a new piece of equipment mounted on a 4-wheel drive Dodge chassis at a cost of approximately \$6,800. We feel confident that this will prove to be a very valuable addition to our department. We purchased 300 feet of 1½" hose, and have an unexpended balance from the truck appropriation of \$1,200, which is earmarked for equipment. We installed 2-way radios in two of our trucks. These radios operate under the Mutual Aid System. We have purchased five additional street boxes and installed three. We will install the other two as soon as possible.

Meantime, we have slightly overrun our regular appropriation of \$3,500. We request an appropriation of \$3,500 for 1958.

When the dial system was installed by the New England Telephone & Telegraph Company we lost the valuable service that the central telephone office has performed for us for many years.

We want to express our appreciation to the Telephone Company, and particularly to the local operators, who have given us so many years of faithful service.

Fortunately, through the generous cooperation of the Troy Blanket Mills we were able to move our alarm transmitter to their power house, where someone is in attendance at all times. In addition, we have installed a so-called "red network" of six telephones. We have also installed some new alarm boxes. The result is that we have a much better system than we had before. If you have a telephone, please turn to the first page of your new directory, and in the space marked, "fire," write 2-7934.

In Case of Fire

If you are near a street box, go to this box, break the glass, open the door, and pull the operating lever down. Stay by the box until a fireman arrives so you can direct him to the fire. This is the best and quickest method to summon the fire department provided you are near a street box.

If you have a telephone, dial 2-7934. One of the six members of the red network will answer, giving you his name. Tell him clearly and slowly the location of the fire. Give him the number of the telephone from which you are calling. While you are talking, the first fire signal will sound—4 blasts 2 times. If the fire is sufficiently serious, this signal will be followed by the general alarm 55-4 times, or a box signal if there is a box located close to the fire.

Should the fire alarm system fail to operate, the Troy Blanket Mills whistle will sound—1 long, 5 short blasts indicating a general alarm, and 2 long, 2 short blasts indicating a fire at the Troy Blanket Mills.

Our fire alarm system was made by the Gamewell Company, who are the leading manufacturers of fire alarm systems in this country. The recent electrical installation was engineered by the Gamewell Company and installed by Mr. Vaughn J. Derby, a member of the International Municipal Signal Association, in compliance with standards laid down by the National Board of Fire Underwriters for the use of municipal fire alarm systems as recommended by the National Fire Protection Association adopted by the New Hampshire Board of Fire Underwriters. The installation has been inspected by engineers from the Gamewell Company and pronounced equal

or better than the above standards. The New Hampshire Board of Underwriters have promised to make their inspection in the Spring, and we hope this may result in the possibility of lower insurance rates, at least for certain locations.

Our red network telephones are at the following locations:

Troy Fire Station	CI 2-7934
Troy Blanket Mills—Transmitter	CI 2-7934
Captain William Dunn	CI 2-7934
Engineer William Parker—Garage	CI 2-7934
Walter Oman	CI 2-7934
Walter Tommila, Assistant Chief	CI 2-7934

Meadowood Fire Department

Our street box signals are at the following locations:

School House—end of School Street	53—4 times
Troy Blanket Mills—corner Monadnock & Nelson streets	54—4 times
Town Hall	55—4 times
Corner South Main Street and Fitzwilliam Road	41—4 times
High Street	42—4 times

Special Signals:

Chimney fire	4—2 times
Grass fire	3—2 times
Forest fire	3—4 times
No school	2—2 times
General mobilization	2—3 times
Test	2—1 time
All clear	1 short blast

Troy Blanket Mills Whistle Signals:

General fire alarm	1 long, 5 short
Fire at Troy Blanket Mills	2 long, 2 short

We appreciate the loyalty and good service extended not only by the members of the Fire Department but by the interest and support by the citizens of our town.

Respectfully submitted,

ROBERT H. CONGDON,

GEORGE K. RIPLEY,

Firewards of Troy.

HAROLD BOYDEN,

Town Auditors.

WAR MEMORIAL COMMITTEE REPORT

The War Memorial Committee meeting was held on January 12, 1958. Six members of the committee were present. The meeting opened with review of the past season at the Sand Dam. Expenditures were reviewed and plans made for next year's expenditures on the basis of the old.

A budget of \$2,000.00 was decided upon. \$1,500.00 to be available for salaries, \$500.00 for equipment and repairs and upkeep of the area and equipment. With the possibility of Fitzwilliam becoming closely allied to Troy and the high school, it was felt advisable that we should extend an offer to Fitzwilliam to bring their children to the Sand Dam this summer.

The most important deficit still remaining at the Sand Dam is drinking water. We believe this will be arranged for this summer.

Mr. Herbert Silander was voted to be the director for this coming season. He has a tentative outline of a program which will include field sports and various events as well as the overall water program. There will probably be two evenings a week activity listed for the Sand Dam so that older boys and girls as well as adults may take part. The meeting adjourned and the committee will meet with Mr. Silander again in one month to go over in more detail the program for this coming season.

War Memorial Program

The 1957 season at the Sand Dam was another successful year. Considerable swimming and water sports were done because of the warm and continually dry season. In spite of the dry season the Troy Blanket Mills saw that water was flowing over the dam practically every day of the season. We owe them much thanks for this.

Ralph Staples was in charge and completed his fifth year

at the Sand Dam. Assisted by Michael Dunn, they gave their usual good rounded program. No report has been received as Ralph Staple has left town and we'll probably get no figures on the number of youngsters who have passed the Red Cross tests. The numbers are about the same as in previous years. In addition, Walter Oman gave two mornings a week to crafts program. There were many accomplishments in the way of leather work, plaster, small handicrafts and fly-tying was initiated to some of the older boys.

The town of Marlboro had rather a poor season in their recreational program, but did come over to Troy to use our facilities twice or possibly three times during the year.

Tennis was given added impetus at the beginning of the season when Mr. John Summers came down from Keene and gave two tennis clinics to those interested in tennis.

The area itself has continued to improve and additions added, so that it is now almost complete except for small touching up here and there. The new building is 24' by 32'; $\frac{1}{2}$ of it being an open but shaded porch facing the east and is very handy for craft work and other things. The interior of 12' by 32' contains spaces for canoes and boat storage during the winter time; has locked closets separately for both craft material and also the sports and athletics material. There is a large 10' service window so that eventually, if the need arises any group cooking, party and club facilities may be added without much difficulty. The building is wired and electric lights have been installed; there are two plug electrical outlets. As yet no drinking water is available and we hope to have that the first thing this season as the last but not the least important major development.

The materials alone that went into the new building came to about \$750.00. The labor was all free, donated by several men. Unfortunately no record of the names of those who who gave their time so generously has been kept but much credit is due to all of them. Between six and eight men showed up every Sunday morning for five Sunday mornings during the summer when the temperature was quite hot making work conditions very difficult. In spite of this, the building progressed very rapidly and was ready for occupancy about the

third or fourth week of the program. The following is a financial account. Once again the expenditures were over the budget by some \$200.00. A little bit more planning this season should find us staying within the budget for the first time in about three years.

1957 Expenditures of the War Memorial Program:

Salaries	\$1,385 00
Canoe	183 65
Oars and paddles	17 36
Harold Lang, labor and materials	65 00
Insurance (liability)	7 50
John Koski, transportation	22 50
E. & E. Smith	26 22
Lepisto's Garage, gasoline	4 68
Nails, conservo and hardware	112 97

THE STATE OF NEW HAMPSHIRE

SCHOOL WARRANT

To the inhabitants of the school district in the town of Troy qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 11 day of March, 1958 at 10:00 a.m. in the forenoon to bring in your votes for the election of the following officials:

1. A moderator for the coming year.

A clerk for the ensuing year.

A member of the school board for the ensuing three years.

A treasurer for the ensuing year.

Two auditors for the ensuing year.

2. To determine and appoint the salaries of school board members and the truant officer, and to fix the compensation of any other officer or agents of the district.

3. To hear the reports of agents, auditors, committees or officers chosen, and to pass any vote relating thereto.

4. To choose agents, auditors and committees in relation to any subject embraced in this warrant.

5. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the salaries of school district officers, auditors and agents, for the payment of statutory obligations of the district, and to authorize the application against said appropriation of any sums as are estimated to be received from the state equalization fund, together with other income, the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

6. To see if the district will vote to hereafter use a check-list for the election of its officers, beginning with the 1959 annual district meeting, and will adopt as its school check-list, the town check-list, as provided in RSA 197: 12a as inserted by laws of 1957 chapter 57.

7. To see if the district will accept provision of chapter 196 par 24 RSA as amended, to provide for the employment of a helping teacher on a union-wide basis, to assist teachers and pupils, to improve the growth and development of pupils, to solve pupil problems of retardation and maladjustment, to adapt the program of studies to better meet pupil needs and to serve as a consultant to the entire staff.

8. To see whether the district wishes the school board and at least three citizens including Dr. Samuel Paul, Mrs. Edward Lang and Mrs. Calvin Cumings, to enter into a study with the Fitzwilliam School Board to determine the feasibility of forming a co-operative school district between Troy and Fitzwilliam; the results of which are to be reported at an adjourned meeting to be held in the Town Hall in Troy at 8 p.m. on Tuesday, Nov. 18, 1958.

9. To see if the district will authorize the school board to purchase the land next to the school known as the Hale lot approximately 80 x 200 ft. and to raise and appropriate the sum of \$1,100 for that purpose.

10. To see if the district will vote to raise and appropriate the sum of three thousand dollars (\$3,000) for the employment of an architect to prepare plans and specifications for an addition to the present school building and request the study committee appointed under article 10 to bring in a report on plans and costs of construction at an adjourned meeting to be held in the Town Hall on Tuesday, Nov. 18, 1958 at 8 p.m.

11. To see if the district will raise and appropriate the sum of one thousand dollars (\$1,000) to be used for the development of a playground area on property now owned north of the present school building.

12. To see if the district will raise and appropriate the

sum of seven hundred dollars (\$700) to install an automatic coded supervisory fire alarm in the school building, coordinated with the town fire alarm system.

13. To see if the district will raise and appropriate the sum of sixteen hundred dollars (\$1,600) to re-wire the Ripley Memorial Building with separate meters for each apartment; and for a new roof on the south side of the building.

14. To see if the district will vote to raise and appropriate the sum of ninety thousand dollars (\$90,000) for the construction and equipment of an addition to the present school building and for making necessary alterations, all of a permanent nature and lasting character, and in order to provide such funds, to authorize the school board to issue notes or bonds in the name of and on the credit of the school district, under provisions of the Municipal bonds statute of New Hampshire RSA 33 and any amendments thereto; and to delegate to the school board authority to fix the time and place of payment of principal and interest of said notes or bonds, the interest thereon, and the principal amount of each note or bond, and to take such other action as may be necessary or advisable.

Given under our hands at said Troy on the 5th day of February, 1958.

F. FULLER RIPLEY,

Chairman.

ROGER SMITH,

CHARLES SHAW,

School Board.

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Troy, N. H. of which the above is a true summary for the fiscal year ending June 30, 1957 and find them correct in all respects.

Aug. 2, 1957

HARRY T. NISH,
HAROLD E. BOYDEN,
Auditors.

REPORT OF THE PRINCIPAL OF THE TROY HIGH SCHOOL

To the Superintendant of Schools:

I hereby submit my first annual report as principal of Troy School System.

I consider it an honor to have the opportunity of once again serving the children and parents of the town of Troy. A considerable number of changes have been made during the past four years: A larger school plant, a great increase in enrollment, inclusion of Fitzwilliam tuition pupils, and a greatly improved program of studies, to name just a few of the more significant changes.

It is the purpose of this report to give a general overall view of the educational picture on the Minimum Standards and Recommended Practices for New Hampshire, Secondary Schools, issued by the New Hampshire State Department of Education, to become effective September, 1958.

Faculty

As in the past, Troy has continued to maintain a faculty of which the community may be proud. Due to various reasons there was a relatively large turnover within the faculty. This condition can be either good or bad, in this situation, Troy has been extremely fortunate in acquiring several young and highly competent teachers. Each teacher has a basic philosophy that the school is in existence to help the individual child develop skills and attitudes to the best of his ability.

It should be mentioned that not every child has the interest or ability to go to college, however, each individual has the ability to become a useful citizen with guidance and help from the school and parents.

During the past few months I have found that the teachers of the Troy School System give willingly their time and energy to the overall education of the children of Troy.

THE ELEMENTARY SCHOOL

In grade one we strive to help the pupil make a satisfactory and happy adjustment from the relatively simple and free life from his home surroundings to the necessarily more complex and restricted life of school. We duly emphasize the values of good health and better citizenship and to help the child develop a sense of accomplishment in learning to read, write, and acquire simple number concepts according to the best of his ability.

Emphasis is placed upon the further development of the three R's in grade two. Reading skills being most important; building vocabulary, reading for understanding and expression are taught through the best principles of the phonetic and sight reading methods. Experiences in the field of science have become an important part of the second grade curriculum.

In the primary grades the major subjects are Reading and Arithmetic. Much time is devoted to Reading and Phonics in an effort to improve reading, speech and spelling.

Reading tests are given at the beginning of the school year. The children that need special help have classes with our special reading teacher, Mrs. Rawding, twice a week.

Health is emphasized daily by the use of charts, exercises etc. Teaching children to be good citizens is also a part of our program.

The third grade in connection with their Social Studies visited the MacKenzie Dairy in Keene.

We have Y. M. C. A. Socials under the direction of Mr. Charles Plimpton, teachers and a few parents. At these parties we have games, movies, dancing and refreshments.

The Safety Patrol Program is under the direction of the intermediate teachers.

Practice teachers from K. T. C. are a welcomed help and this year we had several competent practice teachers.

The Christmas program this year was presented at the P.T.A. meeting in the evening, giving more parents the opportunity of seeing the program.

Grades 4-6

The children now in the elementary school will be the

citizens of tomorrow. Their's will be a time of great decisions in order to keep our democracy safe and sound.

The elementary grades prepare a way for the youngsters to meet this future. As potential leaders of tomorrow, they must be aware of future problems. Through the tools of the 3 R's and democratic ideals, this will be achieved.

READING

The testing program in the seventh grade has real value since the entire grade studies the findings and thus know exactly where each can concentrate to improve.

This year the following experiment is being tried: six excellent readers rated by test were chosen by the reading class. They, with the classroom teacher, hear their student partners read steadily and practice a pretaught technique for the entire

period. They read at their own reading level and progress as rapidly as they are able. The special reading teacher gives supervision and has a group of 10 during the time.

There was a one year four month average gain per pupil in the reading grade level in 1956-1957 in an eight month period. The greatest individual gain was four years four months. This in the eighth grade where the average per pupil gain was two years three and one half months. There are 79 pupils and 6 pupil teachers participating in the reading project.

Pupils report greater ease in reading; better understanding and confidence. 'Ease' is direct growth from "Audience training" an emphasized phase in the teaching. The various kinds of reading, careful for detail understanding, organizing, skimming or for pure enjoyment are taught.

The fast reader is not always the best reader. Attention must be given to voice pitch, work grouping, eye control and expression. The basic parts, phonics, know part recognition, context clues and even sight words still make up the core of reading. Good reading habits are substituted for the undesirable. Continued co-operation from parents and teachers will insure continued progress in this reading program.

HOME ECONOMICS

The Home Economics Department of the Troy High School has as its aim and objective to help to prepare the girls for a more successful career in that most important of all careers for young women; Home-making. It is not our intent to overlook the importance of this training in the home but rather to enlarge upon and to go more deeply into the many phases of Homemaking such as Meal Planning, Budgeting, Furniture Buying, Refinishing Furniture, Home Nursing, Child Care, Interior Decoration as well as the arts of Sewing and Cooking. We also hope to give the girls an insight into and interest in the many careers which are open in the Home Economics Field, such as Home Demonstration Agents, Food Demonstration and Clothing Experts for Commercial Concerns, Teachers, Nurses and Dietitians.

BUSINESS DEPARTMENT

The purpose of this department is

1. to give the students the basic skills and knowledge in

preparation for the responsibilities they will meet in the business world.

2. to give students an understanding of the type of work involved in the various jobs and kind of responsibility involved.
3. to train students in skills common to the average business office.

PHYSICAL EDUCATION PROGRAM

Physical Education is required of all students in grades 7-10 and is an elective for youngsters in grades 11 & 12. Eventually we hope to include the elementary school in an organized physical education program.

At the present time practically all of the activities are restricted to the gym because of the lack of an adequate athletic field nearby. The acquisition of an athletic field would aid in the operation of an efficient physical education program and would also present a suitable play-ground area for elementary youngsters.

Indoor physical education activities include: basketball, volleyball, calisthenics, close order drill, table tennis, bat tennis, aerial tennis, organized group games, folk dancing, deck tennis, etc.

INTERSCHOLASTIC SPORTS PROGRAM

The formation of a new athletic league last fall, called the Southwestern New Hampshire League, has enriched the programs of all member schools. All of the schools are in the same geographical area and have approximately the same size student bodies. Baseball and basketball are played on a league basis and the long range plans call for the inclusion of soccer and cross-country for the boys plus softball and volleyball for the girls. Musical programs, dance festivals, debating contests, dramatic presentations, and other cultural exchanges between the school are on the future agenda.

Softball was added to the girls sports schedule last spring and was received with great enthusiasm. It is hoped that volleyball will become a fall sport on an interscholastic level to round out the girls athletic program.

The high-lights of the boys varsity sports program last year included:

George Tatro winning the State Class M 100 yard dash and 200 yard dash championships at U.N.H.

Harlan Mitchell finishing fourth in the 440 yard run. championship.

Bob Carlson finishing fourth in the 440 yard run.

The Troy team finishing fourth in the state class M track meet.

The cross-country team was undefeated in dual meets during the 1957 season.

INDUSTRIAL EDUCATION

Industrial Arts is required for all boys in grades 7 & 8. This year we have 18 seventh grade boys and 15 eighth grade boys enrolled in the Industrial Arts course.

Our objectives are to develop group and personal responsibility; skill in the use of hand tools and finishing methods; safe work habits; a knowledge and the ability to read and work from blueprints and working drawings; and to develop an appreciation of good workmanship and design.

The first group of projects built are chosen by the instructor, to insure the learning of basic skills. Later in the course the student may choose a project with the approval of the instructor.

WOODWORKING

Any boy in grade 9 and 10 may elect woodworking as one of his subjects. This course is primarily to teach the students the safety and common operations of the following power tools: Circular Saw, Jointer, Planes, Band Saw, Jig Saw, Drill Press, Shaper, Sanders, Wood Lathe and Bench Grinder. Each student will build projects selected by the instructor, that require the use of each of the above power tools. Selecting, designing, planning, assembling and finishing of projects will be taught. After completing one project selected by the instructor each student will be allowed to select his own project according to his ability and the approval of the teacher.

CABINET MAKING

Boys in grades 11 & 12 who have first completed the Woodworking course may elect Cabinet Making. The basic purpose is to improve the students skill in handling hand tools, power tools, finishes, methods and operations necessary in mak-

ing furniture. This course covers all of the special problems in furniture making such as construction of all kinds of joints, hanging a door, panel construction and assembling furniture.

TECHNICAL DRAWING

Technical Drawing is the art and science of describing structures and structures of details completely and accurately by graphical means. Each student will be required to complete a set number of drawings. The drawings will be of three types: 3-Views, Isometric and Sectional Views. Students going on to college, trade school and into engineering sciences will need the background that can be received from this course. The text used in this course is the same one that many college classes and drafting rooms now use.

It is recommended that many students taking the college course, consider this particular course as an elective.

ELECTRICITY

Students in grades 11 and 12 may elect the course in electricity. This course is to help the boys discover their abilities and interest; and some of the mysteries of electricity. Magnetism and its relation to Electricity, Low-Voltage Wiring and House Wiring and Diagrams.

The house wiring is limited to duplex outlets, fixtures and switches.

DRIVER EDUCATION

This year for the first time we will be able to have two classes complete the driver training course. We are very grateful to the Monadnock Garage for loaning us a car that could be used until our own car was delivered. This enabled us to start the course several weeks earlier than we have in the past and take twice the number of students for the year.

Any student who is sixteen years of age or a fifteen year old who will be sixteen three months after the course begins may take Driver Training. The student learns the basic parts of an automobile, rules and laws of the highway and proper operation of an automobile. This year sixteen to twenty students will complete the course.

MATHEMATICS

In view of our expanding enrollment, we are now prepar-

ing to offer a well rounded program in the field of mathematics. Beginning with the year 1959-1960, we will be offering Algebra I, Geometry, Algebra II, and Math IV. It is our sincere hope that all four courses will be well attended.

A word is necessary regarding the fourth-year course, Math IV, this course is intended to develop the students knowledge of mathematics to the fullest. Trigonometry, solid geometry and spherical trigonometry are the areas of major emphasis. In the remaining weeks, usually twelve to fourteen, the students consider advanced algebra, and an introduction to analytic geometry. We believe this will prepare our young men and women for any college program.

MINIMUM STANDARDS FOR SEPTEMBER 1958

An attempt is being made by the New Hampshire Department of Education to insure an adequate secondary school education in terms of minimum standards.

In December, 1957, a visiting team composed of four members of the State Department of Education, visited Troy High School. A written report followed. The purpose of the visit were twofold: The first was to clarify what action, was necessary in order to qualify Troy High School as an approved High School under the Minimum Standards for New Hampshire Secondary Schools; the second purpose was to identify those aspects of the school plant and program which are in need of attention if Troy is to offer a comprehensive program.

The following is a list of some of the changes that Troy must make in order to meet the Minimum Standards.

1. Class enrollments should not exceed 40. We do have some classes that exceed 40. Additional classrooms and staff members will be needed to meet this requirement.

2. Only two courses in the fine arts area are now offered. (art and chorus) A third offering will be needed next year. (Music Appreciation).

3. Twelve unit-courses in the vocational and practical arts area are required. At present we are providing eleven unit courses. This can be remedied by employing our Home Economics and industrial arts teachers on a full time basis.

There seems to be no reasonable solution for providing

additional shop area other than building a new shop. This would be desirable in many ways. The present area does not meet State requirements for space. There seems to be no way of remodeling the present shop to meet these requirements. As our enrollment figures continue to advance, we definitely need more work stations.

4. The present science laboratory is completely inadequate. A building program should include a modern multipurpose science room with suitable equipment for 20-25 pupils. The present lab. could be remodeled into a standard classroom.

5. Facilities for a room to be used on a part-time basis for art and music instruction should be provided. This could be accomplished if a new shop area is added. The present shop could be remodeled into an all purpose room to be used for art, music, special reading, study hall, and classes if necessary.

6. It would seem reasonable to consider the addition of a new business department room. Again this would free another room for classroom purposes. The business department is experiencing growth in its enrollment due partly to the need for trained personnel in the business field in this locality.

Troy is not alone in facing expansion problems of the secondary school level. I have a great deal of faith in taxpayers of Troy, who in the end will determine whether or not Troy High School will continue to be an approved secondary school.

In conclusion I would like to express sincere thanks to you the superintendent, school board members, the faculty, students, and parents for the co-operation I have received. I feel certain that the citizens of Troy can be proud of their school and will continue to support the philosophy that the education of our children is our most important community function.

Respectfully submitted,

GORDON E. DECATO,
Principal.

REPORT OF SUPERINTENDENT OF SCHOOLS

If Troy citizens will turn to page 97 of last years town report they will find that my superintendent's report emphasized the fact that the Troy School population was growing so rapidly that additional construction would soon be needed. Since that time the State Department of Education has adopted new standards of education for high schools. These standards are timed at better preparing the youth of the nation to meet the challenges facing our country. Population growth plus these new standards now present Troy with a problem which requires the immediate attention of the community.

We at present have 15 school rooms. 6 of these are occupied by the elementary grades. 3 rooms, shop, home economics and the library are not available as classrooms. This leaves 6 regular classrooms available for grades 7 through 12. This present school year finds all of these room occupied, some with classes of 42 pupils; far too many for good teaching results. Next September, additional pupils will enter high school, some classes will be so large that they will have to be divided and these two factors alone will require additional classroom space not now available.

Our shop area is less than half that required under the new regulations. Our home economics room is adequate in size but fails to meet standards in equipment. Our science laboratory is inadequate in size and equipment under the new standards. All of these conditions add up to one solution, **more space**. That means that additional construction is needed. The longer this solution is delayed, the greater the educational loss to Troy pupils and the greater the danger of Troy High School losing its state approved rating.

A building program designed to fully meet state requirements would continue to attract high school pupils from Fitz-

william; and there is every indication that tuition income from this source alone would meet the full costs of new construction. It is to be hoped that Troy citizens will carefully study the entire situation and take the proper steps to assure an accredited high school in the community.

DR. CHARLES BOWLBY,
Superintendent.

To neglect our school system would be a crime against the future. Such neglect could well be more disastrous to all our freedoms than the most formidable armed assault on our physical defenses . . . Where our schools are concerned, no external threat can excuse neglect; no menace can justify a halt to progress.

DWIGHT D. EISENHOWER

MINUTES OF SCHOOL MEETING

March 12, 1957

Meeting was called to order at 10:00 A.M by Moderator Samuel E. Paul.

Reading of warrant by Moderator.

Article 1

To bring in your votes for the election of the following officials:

A moderator for the coming year.

A clerk for the ensuing year.

A member of the school board for the ensuing three years.

A treasurer for the ensuing year.

Two auditors for the ensuing year.

A motion by Mr. George K. Ripley and supported Article one to be taken up after Article 32 of Town Meeting.

The motion was carried in the affirmative (Yea Vote)

Article 2

To determine and appoint the salaries of school board members and the truant officer, and to fix the compensation of any other officer or agents of the district.

A motion by Mr. Ernest Woodbury, Jr., a Member of the School Board, and supported, to adopt as printed on Page 79 of the Annual School Report.

Show of hands 21 Yes 0 No.

The motion was carried in the affirmative.

Article 3

To hear the reports of agents, auditors, committees or officers chosen, and to pass any vote relating thereto.

A motion by Mr. Roger Smith, a Member of the School Board, and supported, to approve as printed in the Annual School Report on page 83.

Show of hands 18 Yes 0 No.

The motion was carried in the affirmative.

Article 4

To choose agents, auditors and committees in relation to any subject embraced in this warrant.

A motion by Mr. F. Fuller Ripley, a Member of the School Board, and supported, that there being none to pass over this Article.

Show of hands 17 Yes 0 No.

The motion was carried in the affirmative.

Article 5

To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund, together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Mr. Ernest Woodbury, Jr., a Member of the School Board explained the expenditures from September 1957 to June 1958 printed on pages 79-80-81-82 of the Annual School Report.

Samuel E. Paul, Moderator was called away at 10:20 A.M. on account of an emergency.

Clerk Vaughn Derby asked the School District what their pleasure was for a Moderator Pro Tem.

A motion by Mr. Clarence Abare, Selectman and supported, that Mr. George K. Ripley act as Moderator Pro Tem.

Show of hands 21 Yes 0 No.

The motion was carried in the affirmative.

Article 5 continued

A motion by Mr. Ernest Woodbury, Jr., a Member of the School Board, and supported.

Motion:

Moved that the school district raise and appropriate \$107,-645.00 and to authorize and direct the school board to apply against said appropriation such income as is estimated by the school board exclusive of state aid, and upon the determination of the amount of state aid to be received by the school

district during the next fiscal year, to authorize and direct the school board to apply against such appropriation the sum to be received from state aid and with the school district clerk certify to the selectmen the balance as an assessment to be raised by the town for school purposes.

The motion was carried in the affirmative.

Show of hands 39 Yes 0 No.

Article 6

To see if the district will vote to accept any funds which may become available through Federal School building aid and authorize the school board to take any necessary action thereto.

A motion by Mr. F. Fuller Ripley, a Member of the School Board and supported, to give power to the School Board to accept any amounts, if any, available from Federal School building Aid.

Yea vote.

The motion was carried in the affirmative.

Article 7

To see if the district will vote to raise and appropriate the sum of \$1,750 to provide for necessary motorised valves for zoning the heating system in the older part of the school plant, to replace radiator valves, etc. and to correct the heating system at the Ripley Memorial Building.

Mr. Roger Smith, a Member of the School Board, explained the reason for asking for \$1,750.00

Installing four heating zones in old school \$1,250 00

New heating line to shop, repair old radiators 300 00

At the Ripley Memorial Bldg. new valves etc. 200 00

A motion by Mr. Calvin Cumings, Selectman, and supported to raise \$1,750.00 for this Article 7.

Show of hands 36 Yes 0 No.

The motion was carried in the affirmative.

A motion by Mr. Clarence Abare, Selectman: That the polls be open for voting on Article 1 at the recess of the Town Meeting after Article 32 and kept open until 6:00 P.M.

Yea vote.

The motion was carried in the affirmative.

Mr. William Parker was appointed Moderator Pro Tem by Samuel Paul, Moderator.

Total votes cast 214 of this number 3 were blank.

Samuel E. Paul for Moderator has	190
Vaughn Derby for Clerk has	177
Charles T. Shaw Jr. School Board Member	
for 3 years	119
Ina M. Clark for Treasurer has	194
Harold E. Boyden for Auditor has	162
Harry T. Nish for Auditor has	156
and are declared elected.	

Mr. George K. Ripley had 4 votes and Mr. William Parker had 4 votes for Moderators.

There being no further business to come before the Annual School District Meeting, Moderator Pro. Tem. William Parker declared it closed at 6:37 P.M.

Forest Fire Prevention is Everybody's Business

New Hampshire faces a continuing challenge in its forest fire problem—97 per cent of all our forest fires being man-caused and preventable—a serious indictment of interest in our own welfare and that of our neighbor. Both the State and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Careless and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires—all result in serious loss of property disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtful and cooperative effort—The rules are simple.

1. Don't burn at home—use your town dump and avoid all fire problems.
2. If you do burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fire places and camp fires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.
3. Be sure that all lighted material cigars, cigarettes and matches—are completely out before discarding them. Use ash trays in automobiles.
4. Make certain that your debris, camp and cook fires are completely out before leaving them.
5. Insist that others be careful and comply with burning requirements.
6. Call the warden promptly when fire is detected and aid him to extinguish it.
7. Don't start any fire at dump. Burning will be taken care of.

REMEMBER—the fire you prevent might be the one which could burn YOUR property.

REMEMBER—FOREST FIRE PREVENTION is EVERYBODY'S BUSINESS
Our MOST IMPORTANT UNDERTAKING

1957 FOREST FIRE RECORD FOR TROY

Number of fires 2

Number of permits issued 115

Acreage burned 1

CORNELIUS WOOD, District Fire Chief.
W. A. PARKER, Forest Fire Warden.
